Adding to the talk about Ottawa businesses leaving. The Ottawa Cigar Factory has left town also. The photo is of the factory crew taken at the rear of the business. My mother worked there for a time before she married. Two good friends of mom and dad also worked there, Chuck and Flosie Punt. I think they were single at that time also. The business was located downtown on the second floor of the west corner of the current Heringhaus building.  
(Schomaekers Hardware in my time)

### Current Court House erected 1909 - 1913

#### 245 East Main St. - COURTHOUSE

Kalida was designated as the first County Seat in 1829. In 1835 the Kalida Courthouse was constructed of logs, later replaced by one of brick. In December, of 1864 the building was destroyed by a disastrous fire in which many valuable records were lost. Great controversy raged over the proposal to move the county seat to Ottawa where railroads were being built. In 1865, the Legislature of State authorized an election. A majority of votes for Ottawa resulted in the removal. The first courthouse in Ottawa was constructed of red brick, completed in 1868 and used until 1912 when the present building with its marble floors and balustrades was erected.

1865 - County Courthouse, Kalida, Ohio

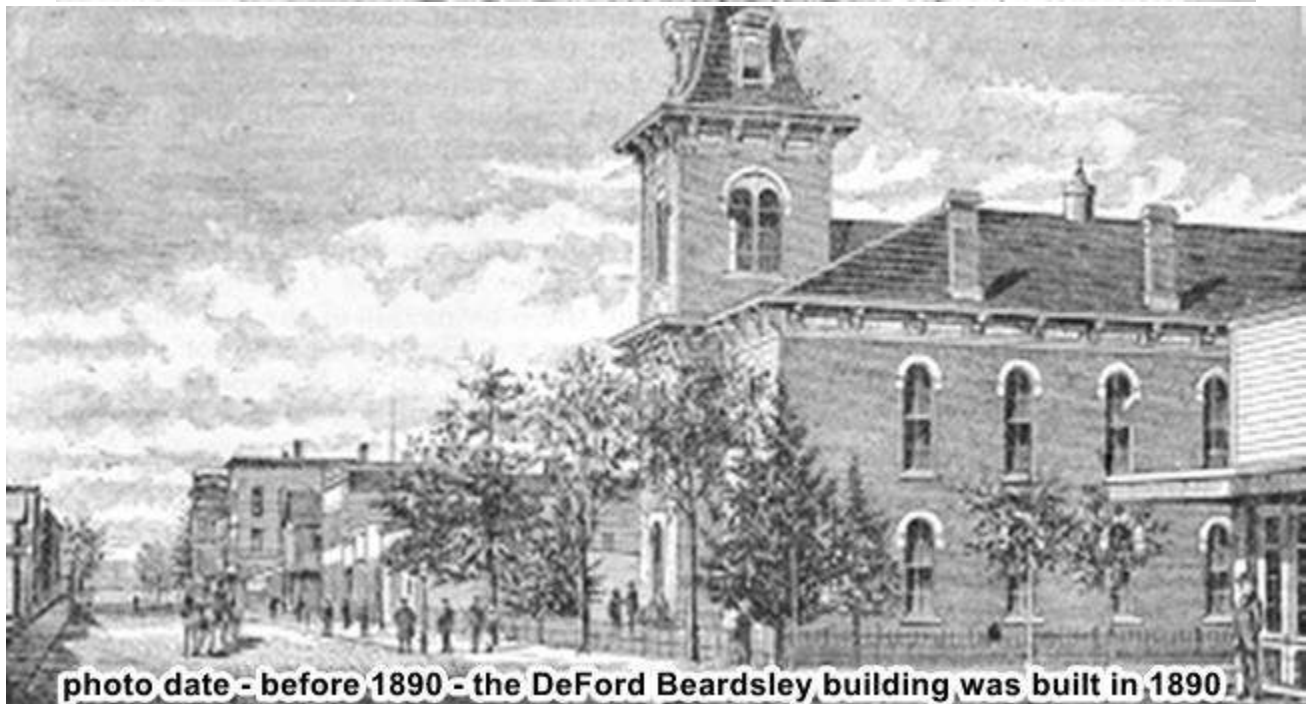

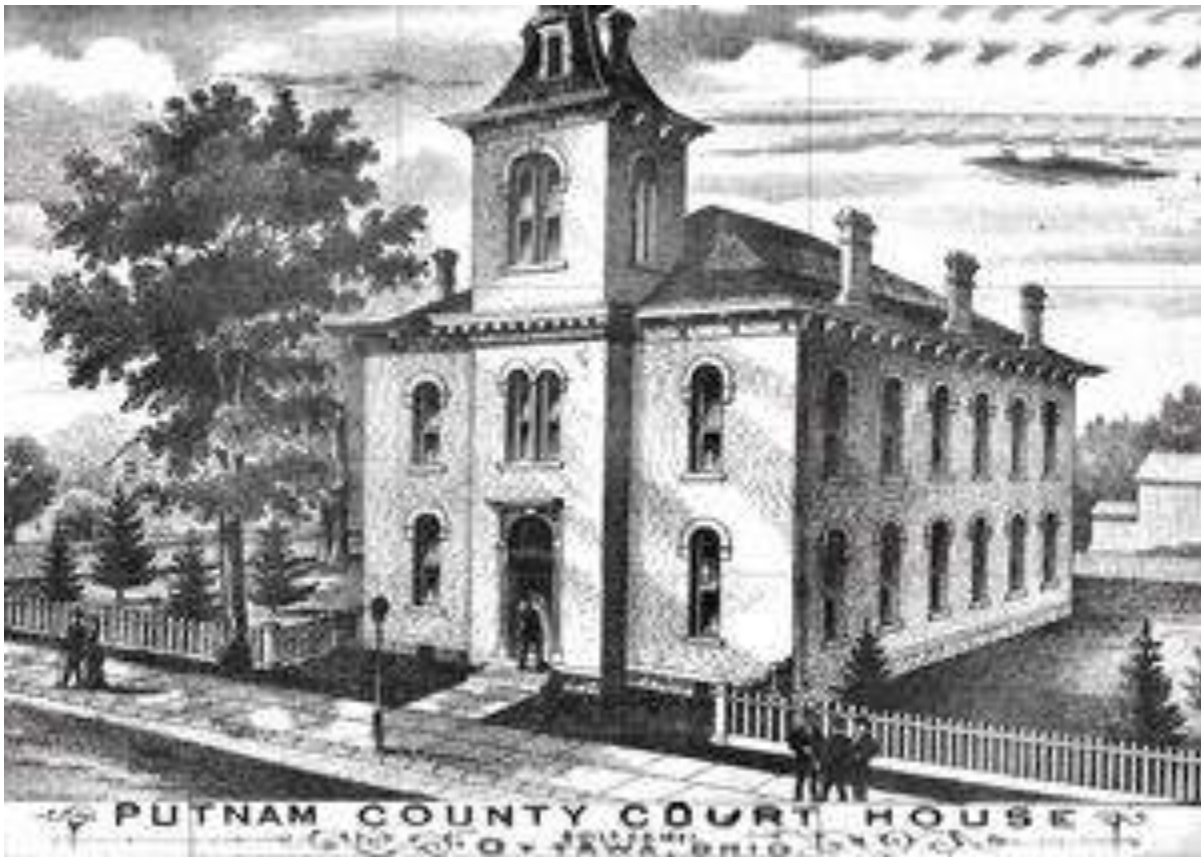

## Ghost of Courthouse Past

*A rare archaeological find was reported by workers in the Putnam County Courthouse this week without even doing any digging. The foundation of the old courthouse, which was torn down in the early years of this century, showed up in an outline in the grass in front of the present county office building. The extremely dry weather conditions of this summer are bringing out the outline of the long buried foundation. Longtime county employees said.*

## Site 9 - 245 East Main St. North Side continued

The new courthouse was constructed just behind the old courthouse

## Site 13 - Parking Lot - North Side - East Main St. continued

Visible in the 1915 photo is part of the rear of the Eberle Hardware Store, The City Building and Fire Department and part of the Railroad water tower. All were in today's city parking lot across from the City Building.

The 1884 Sanborn Map (shown below) shows a Passenger Depot west of the R. R. tracks

Harry Kahle, a 1934 graduate of SPPS, sent me this picture of the Ottawa Fire Dept., circa 1916. He identified his father, Harry, Sr. and his uncles, Albert Kahle, George Kahle, Frank Laibe and George Laibe. Harry, Sr. and Frank Laibe both died in the 1918 influenza pandemic. Harry Kahle, Jr. left this area in the late 1930s but always loved Ottawa and his alma mater. **Note from photo owner**
